## Experience

---

### FullBeauty Brands - Web Designer(Temp)

Mar 2018 - Present

Working with FullBeauty Brands, I help manage weekly campaigns for more than one of the company's many brands (of which are in the fashion industry). These campaigns are often filled with new landing pages, emails, mobile website updates, and website banner changes that rolls out on a weekly basis. As part of a team, I ensure the workflow within departments run smoothly and has fast turnover times.

### MGEMS Graphics - Graphic Designer (Temp)

Dec 2017 - Jan 2018

In this temporary position for MGEMS Graphics, I designed an array of graphics for various social media campaigns. The utilization of software such as Photoshop, Illustrator, and Canva was essential to the completion of my work during this assignment.

### Skyline Enterprise - Web Designer

Dec 2017 - Present

Since I've been working with Skyline, I've been able to redesign the company website and organize its content. I also maintain the website to ensure that the functional, technical, and aesthetic aspects are executed successfully. Other responsibilities I have assumed include basic office duties including filing, scanning, preparing letters for mailing and completing mailings, as well as various accounting duties accomplished with Quickbooks.

### Athenahealth.inc - Content Associate

March 2016 - August 2016

While working for this health care company, I developed and edited mobile-based content using HTML and CSS3. Additionally, I used the Adobe Creative Suite platforms to provide the services of graphic optimization and manipulation, and also processed enhancements and improvements to the graphics over time.

### Adrian Caterer's - Web Designer/Developer

March 2016 - July 2016

While working for this catering company, I designed and constructed an interactive website, as well as creating the company's online presence with various other fundamental techniques. I also helped in the establishment of the company's social media presence on networking platforms such as Facebook and LinkedIn, along with executing the implementation of SEO practices. The management of the website was also improved with the design of website documentation.
